SMARTBOARD KINDER MATH

The image shows a smartboard in a classroom setting. At the top, there is a banner with letters Dd through Ww, each accompanied by a small illustration. Below this, the smartboard displays a math activity for the number nine. The activity includes a ten frame with one square filled with a '9', a number line from 0 to 20, and a row of nine smiley faces. To the left of the smartboard, there are cards for various shapes: square, rectangle, triangle, diamond, trapezoid, star, pentagon, octagon, and heart. To the right, there is a calendar for August and a set of days of the week cards. Below the smartboard, there is a row of six blue-bordered cards with the following text: 'Listen when someone talking.', 'Follow directions that are given.', 'Treat everyone with respect.', 'Take care of your school and classroom.', 'Work and play safely and quietly.', and 'It's OK to make mistakes.'

Fill the ten frame to show nine.

Circle nine on the number line.

Color nine shapes.

square, rectangle, triangle, diamond, trapezoid, star, pentagon, octagon, heart

August

Yesterday, Today, Tomorrow

Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday

Listen when someone talking.

Follow directions that are given.

Treat everyone with respect.

Take care of your school and classroom.

Work and play safely and quietly.

It's OK to make mistakes.

SMARTBOARD KINDER MATH

The image shows a smartboard interface with various educational content. At the top, there is a row of letters from Dd to Ww, each with a corresponding illustration. Below this, the smartboard displays several math activities:

- Show the number using tally marks.** A large empty box is provided for students to draw tally marks.
- Color nine base ten blocks.** A grid of nine small cubes is shown, with the instruction to color them.
- Count and fill in the missing number.** A sequence of numbers is shown: 7, 8, a blank box, and 10.
- Fill in the missing numbers.** Two simple equations are displayed: $4 + \underline{\quad} = 9$ and $10 - \underline{\quad} = 9$.
- Fill in <, >, or = to make it true.** A comparison problem is shown: $9 \bigcirc 9$.

Other elements on the smartboard include a calendar for August, a grid of shapes (square, rectangle, triangle, diamond, trapezoid, star, octagon, heart), and a row of six blue-bordered cards with classroom rules:

- Listen when someone talking.
- Follow directions the first time given.
- Treat everyone with kindness and respect.
- Take care of your supplies and classroom.
- Work and play together quietly.
- It's OK to make mistakes.
